AFRICA & MIDDLE EAST

COMPANY OVERVIEW

Southey Contracting Africa Division is a leader in providing fabric maintenance, insulation, repair and maintenance services to clients throughout Africa and the Middle East.

These services include corrosion protection, scaffolding, insulation, cladding, tank cleaning, NDT inspections, rope access, sheeting and maintenance solutions to a variety of clients ranging from offshore oil rig operators to construction companies to mining houses and power plants.

AFRICA & MIDDLE EAST

BUSINESS PHILOSOPHY

Our business philosophy has been to invest in the countries in which we operate and we have locally registered on-the-ground operations in Zambia, DRC, Mozambique, Tanzania, Angola, Congo, Gabon, Ghana and Oman. All these operations have trained local personnel (project management, technical and administrative staff); a full suite of equipment to meet the requirements of the services offered; and numerous projects are currently being managed in these countries. Any African and Middle Eastern country not listed above is managed on an ad-hoc basis by mobile project teams utilising local staff in those countries of operation.

We firmly believe that the training of local staff is key to developing these economies and this also enables our clients to benefit from the advantages of our investments. Our health, safety and quality values meet international standards and we pride ourselves in ensuring all our staff are adequately trained, so as to deliver our services in the safest possible manner by not endangering their lives, the public, our clients or the environment.

AFRICA & MIDDLE EAST

STRATEGIC OBJECTIVES

Vision

To operate as a dominant player providing specialised access, inspection and maintenance services to the international oil & gas and mining sectors.

Mission

To provide quality specialised access, inspection, maintenance and engineering services to our customers through our team of dedicated, motivated and trained personnel who understand that our customers are the reason for our business.

AFRICA & MIDDLE EAST

HEALTH, SAFETY, ENVIRONMENT AND QUALITY

The health and safety interests of all employees are of paramount importance in the Southey Contracting, whilst the protection of the environment is a critical factor in all areas of the company's activities. We do not expose any of our employees to risks or dangers through the execution of their responsibilities and respect for the environment is a policy to which all employees adhere.

Southey Contracting has a Health, Safety and Environmental Management system authorised by senior management that clearly states the overall HSE objectives and a commitment to improving health and safety performance and minimising impacts on the environment.

Southey Contracting operates a quality management system accredited to ISO9001:2008 and continuous improvement of our processes is the driving force towards total customer satisfaction.

AFRICA & MIDDLE EAST

FOOTPRINT

Our regional footprint allows us to mobilise our multi-disciplined teams swiftly, so that we can respond to our client's requirements with effective access, inspection and maintenance solutions.

Our equipment is strategically placed in our operating areas and this enables Southey Africa & Middle East to provide a quick turn around on the major contracts that we secure throughout our operational areas.

The continued growth within the oil & gas, mining, construction and energy sectors will ensure ongoing investment in our regional operations.
